

Wireless Voice & Data Airtime, Handheld Devices and Support

[Contract # 15-91575-70x](#)

Contract Term: November 30, 2007 - June 30, 2010 with two optional one year renewals by mutual consent available

Contract Administrator: [Gary McFall](#), 608-266-1032

These contracts are mandatory for state agencies/UW campuses and optional for Authorized Users. Special conditions may apply for Authorized Users.

AT&T Mobility is the primary vendor for the [NE/NW regions](#) of the State.

US Cellular is the primary vendor for the [SE/SW regions](#) of the State.

Verizon Wireless is the secondary vendor for the [SE region](#) of the State.

Primary vendors will provide service to all users within defined geographical service areas. In the event the primary vendor is unable to meet technical requirements, agencies or UW campuses may seek a DET waiver to use the secondary vendor. If there is no secondary vendor or the secondary vendor is unable to meet technical requirements, agencies or UW campuses may seek a DET waiver to use an alternate, non-contracted vendor. Click [here](#) for information on the waiver process.

Plans to introduce/support SmartPhones will be published when an enterprise synch solution has been implemented. There is no timeframe established for that task at this time.

If there are any discrepancies between the information above and the contracts on VendorNet, the contracts prevail.
