

DET Service Offering

The State of Wisconsin, Division of Enterprise Technology

Revised 9/2003 v1.00

Let DET Provide Your Web Hosting

Web Hosting Services Offered by DET

DEFINITION

The hosting of customer Web pages and applications on DET owned and/or managed servers.

HISTORY

DET began hosting a Web site and application on a UNIX platform for the Department of Public Instruction in 1994. Demand for this service has continued to grow and now includes the hosting of several hundred Web sites and dozens of applications. DET provides two environments for Web hosting:

- WebSphere using DB2
- IIS using either Oracle or SQL Server

FEATURES/ADVANTAGES

- "Development" environment for developing applications
- "Test" environment for testing applications
- 60 MB of storage included with basic service
- Bandwidth of 64 KB for site access
- Daily Web site back-up
- Domain Name registration ("wi.gov" or "state.wi.us")
- Help Desk support (24/7/365)
- Search engine to index the Web site
- Single point of contact within DET throughout the development process and through the migration to the production environment
- Standard WebTrends report and the Web server log file for download
- Use of the DET's common Web site design (local units of government)
- Use of the DET-designed maintenance application and basic instruction in the use of the application for customer staff assigned to maintain the customer's site content
